JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

precautions as will enable the immediate putting into effect of the regulations successfully employed at the time of the outbreak of cholera in the autumn of 1905, especially the supervision of the rivers near the frontier.

Report from Bremen—Quarantine of emigrants from Russia on account of cholera in the trans-Volgian districts.

Consul Fee reports, August 14:

Owing to the epidemic outbreak of cholera in the trans-Volgian districts of Russia, and especially in the cities of Samara, Saratoff, and Astrachan, the board of health of the city and State of Bremen has issued an order whereby all emigrants coming directly or indirectly from Russia are put under quarantine for five days. Their baggage is disinfected, and every precaution is taken to prevent a spread of the disease.
